

GARUT CLUB

What is Garut?

“Garut” is a Sanskrit word which means wings of a bird.

Why Garut Aeromodelling club came into existence?

Aeromodelling is an amazing hobby. Aeromodelling involves knowing, building and flying of the aircraft(RC Plane, Quad-copter, Ornithopter, Gliders...).Aeromodelling is an expensive hobby, however Garut aeromodelling club is trying to cultivate this hobby among students for a relatively lesser price.

We are aiming to take KSIT's only Aeromodelling club (GARUT AEROMODELLING CLUB) to a National and International level competitions. This led to the establishment of the club.

RC AIRPLANE WORKSHOP

Trainers from Skyfi labs trained students on how to build an Aircraft and rewarded the best teams that build the best models with distinction certificates. RC (Radio Controlled) Aircraft is a 2-day workshop where in we had learnt the basics of flight, the designs necessary for the flight and the building of the flight with our own hands. At the end of the day watching something that would fly under your control is something that words can't explain!

Prerana-MOTIVATIONAL TALK

Prerana was an incentive event for personality development by **Col. Anshu Trivedi (retd)**. He had served The Indian army in many major wars like Kargil. He put forward his life lessons from the Indian army, where the youngsters learnt the different ways to handle the situations correctly. He brought his disciplines from the army which was implanted onto students. He is also a mentor who can help us train and get into the esteemed Indian Army.

ARTF-Almost Ready to Fly

This was a kickstarter event for Avionics by **Mrs. C. Saraswathi Nagarajan**. She has served B.E.L, H.A.L,HMA, M/S Enit Solutions and had been a part of the team for designing of **Tejas Aircraft**.

Her knowledge of Avionics was shared with students and the very basics of flight was thought here.
