**Expert Details – with photo**

**Name: Mr. Kunal Deep**

**Designation: Vice President, Customer Success, Digii | Co-Founder and CEO, EduSaksham | Ex-Deloitte | SJMSOM, IIT Bombay**

**Organization: Digii, (CollPoll)**

**Brief Profile about the Expert:**

Mr. Kunal Deep graduated from M S Ramaiah Institute of Technology and is a proud alumnus of prestigious Indian Institute of Technology (IIT) Bombay, where he earned his Master of Business Administration (MBA) in Operations Management. This academic foundation, combined with his hands-on experience, has equipped him with the knowledge and skills to excel in the dynamic world of business and technology. Mr. Kunal Deep has 14 years of diverse industry experience, including a notable stint at Deloitte, where he served as a Senior Business Consultant. His contributions involved business process mapping, client engagement, and blueprint workshops for one of the largest retail chains in the USA and UK. Beyond his corporate leadership, Mr. Kunal Deep is a true visionary, as exemplified by his role as the Co-Founder and CEO of EduSaksham, which is a Learning App. EduSaksham has worked closely with educational institutions, both public and private, to provide top-notch online education services, revolutionizing the way students learn and educators teach. Mr. Kunal Deep currently holds the prestigious position of Vice President - Customer Success at Digii, formerly known as CollPoll.

## Description of the Event:

This Guest Lecture is organized with an objective to provide insights as how to socialize engineering students. The Guest lecture was held on 15<sup>th</sup> Sep 2023 at 2.00pm in Conference Hall, Ground Floor, New Building, KSIT. *Dr. Surekha Borra, HoD Professor, Dept. of CSE (ICB) & Chief Research Coordinator, KSIT, Bangalore*, started the event by welcoming the Guest Speaker Mr. Kunal Deep, dignitaries, faculty and student participants and briefed the importance of Engineers Day and the need for organizing the Guest Talk on “Engineers and Socialization”. Dr. KVA Balaji, CEO, K.S. Group of Institutions welcomed the Guest speaker with a flower Bouquet. Dr. Surekha Borra introduced the speaker to the August gathering. Later, Mr. Kunal Deep in his session discussed the following topics in his lecture:

- Engineering education, Career Opportunities
- Engineers’ contribution to society
- User experiences
- Need for Transformation
- Making choices for multicultural education
- NEP, Teaching and Learning Tools
- Startups, Failures, Self-efficacy
- Environment Concerns, Social concern

The speaker first shared about his life journey from Engineer to Entrepreneur and the learnings over his career, the career opportunities that lie ahead of post engineering degree. He explained how engineering profession is a powerful force for change, and how each engineer from multiple disciplines can shape the future. He also discussed about how web and mobile based AI-powered campus automation, digital learning and analytics platform addresses the rising complexity, competition, and digital compliance of higher education institutions.

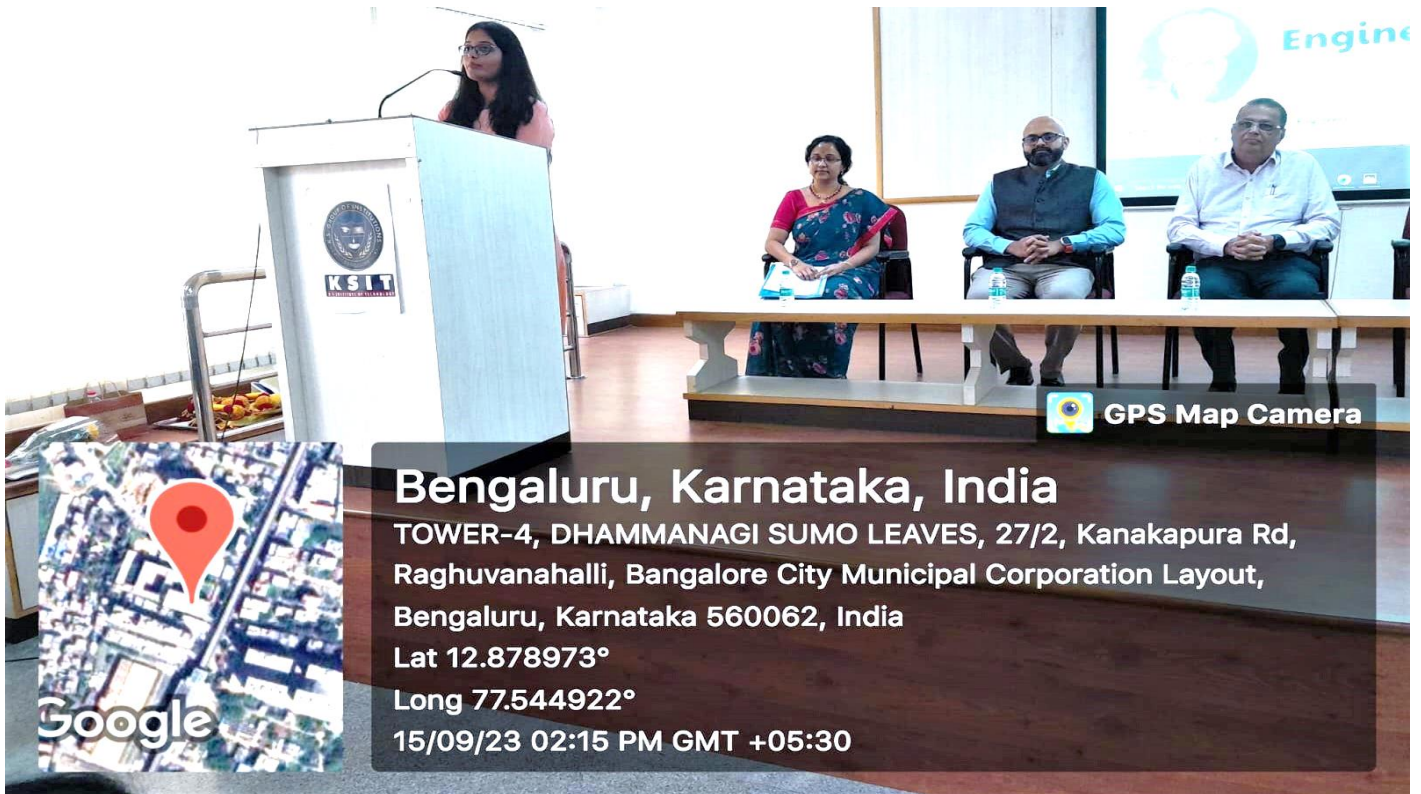

The complete session was very informative which helped everyone imbibe the knowledge about engineering education, social and ethical issues relevant to the society. Participants Students were exposed to the different mobile apps and tools. Finally, feedback was collected from all the participants via google form. A total of 115 (105 Faculty and 10 faculty) attended the lecture. The event ended at 4.00 PM., and everyone left with positive feedback.

## Objectives / Key Highlights:

- To help enhance their career opportunities and skills.
- To help focus more and build their own opinions about the social concerns.
- To help explore the others work in their interested domains and help them evolve critical thinking.
- To provide insights of startups
- To understand the ethics in corporate companies

Participant details - No. of Participants: 115  
Students (internal/external): 105 and Faculty: 10
