National Service Scheme

ರಾಷ್ಟ್ರೀಯ ಸೇವಾ ಯೋಜನೆ

14, Raghuvanahalli, Kanakapura Main Road, Bengaluru - 560 109.

Date of Conduction of Program: 08-02-2025

Organized by: NSS unit of KSIT

Duration: 4 weeks

Participants: NSS Students of 6th Semester

“Helping Government Schools to Achieve Good Results”

Executive Summary

Introduction

The National Service Scheme (NSS), launched on September 24, 1969, in honor of Mahatma Gandhi's birth centenary, stands for the motto "Education through Service." The program is built on two core principles: combining education with service and fostering overall personality development through community engagement. NSS offers students in higher education institutions an opportunity to actively contribute to society while gaining valuable life experience. Through various community-based initiatives, the NSS enables volunteers to better understand social realities, apply their academic knowledge to practical challenges, and grow into responsible, socially aware citizens.

As part of our commitment to community outreach, we visited a government school as NSS volunteers with the goal of supporting students in improving their academic performance and guiding them in choosing suitable career paths after completing their schooling.

Examples of NSS Service Activities

NSS volunteers participate in various service activities, including:

- Working with NGOs and other social organizations.
- Conducting awareness campaigns on important issues like sanitation, hygiene, and literacy.
- Participating in camps and special programs.
- Adopting villages or slums and working to improve living conditions.

Participation and contributions in helping Government Schools to achieve good results:

This report provides a detailed account of the educational training sessions conducted for school students, aimed at enhancing their academic performance. Photographic evidence of the activities and sessions held has been included. Additionally, a certificate of appreciation recognizing our participation and contribution to the educational initiative is attached in the Appendix.

Conclusion

The classroom sessions conducted under the NSS initiative served as an effective platform to enhance students' academic engagement and performance. In addition to academic support, we provided career guidance and organized awareness drives on hygiene, sanitation, and literacy. These efforts aligned with the core objectives of the NSS—integrating education with service to foster responsible and well-rounded individuals.

1. Importance of Government Schools in Indian Education System

As pillars of the public education system, Government Schools ensure that the right to education, enshrined in the Indian Constitution, is accessible to all, regardless of caste, creed, gender, or financial status. These schools not only impart academic knowledge but also instil values such as equality, secularism, discipline, and civic responsibility as essential traits for responsible citizenship. With a vast reach into rural and underserved areas, government schools act as agents of social transformation by breaking cycles of poverty, promoting gender equality, and nurturing talent that may otherwise go unnoticed. Moreover, when strengthened through policy support, infrastructure improvements, and quality teaching, government schools have the potential to nurture a generation of empowered, informed, and ethical individuals who can contribute meaningfully to India's development. Thus, investing in and reforming government schools is not just an educational priority, it is also a national imperative for building an inclusive and progressive future.

1.1 Highlights of Government School Statistics across the country

- Over 11 crore students (110 million) study in government schools across India (UDISE+, 2022–23).
- 70% of all rural children depend on government schools for primary education (ASER Report, 2023).
- In states like Kerala, government schools outperform private schools in literacy and academic performance due to strong state support and investment.

- The Navodaya Vidyalayas (fully government-run residential schools) have a track record of students cracking IITs, AIIMS, and UPSC exams consistently—over 4,500 JEE selections in 2022 alone.

1.2 The Need for Imparting Knowledge to Government School Students

Imparting quality knowledge in government schools is crucial to ensure equitable education and national development. These schools serve as the foundation of learning for the majority of India's children, particularly from underprivileged and rural backgrounds. However, without the delivery of relevant, updated, and engaging knowledge, students may be left behind in a rapidly evolving world. Strengthening the curriculum with practical, skill-based, and digital education helps bridge the gap between urban and rural education standards. Empowering government school teachers through training and innovation ensures that they are not just instructors but true facilitators of learning. Moreover, when students in government schools are exposed to quality knowledge and modern teaching methods, their confidence, creativity, and competitiveness increase significantly. This leads to higher academic outcomes, better job opportunities, and an empowered generation that can contribute meaningfully to society. Therefore, investing in knowledge delivery not just infrastructure is key to making government schools more successful and impactful in nation-building.

2 How can Engineering Students Help Government School Students Achieve Academic Success

Engineering students, with their strong academic background and problem-solving skills, can significantly contribute to improving the learning outcomes of high school students in government schools. By volunteering their time to conduct subject-specific tutorials—especially in mathematics, science, and technology—they can simplify complex concepts and make learning engaging through real-life applications and experiments. They can also introduce digital tools, coding basics, and STEM projects that expose school students to modern learning methods and future-ready skills. Engineering students can serve as mentors, guiding students on study techniques, career paths, entrance exams like NEET/JEE, and even English communication. Peer-to-peer learning bridges the gap between students and education in a more relatable way. Additionally, through initiatives like NSS (National Service Scheme), IEEE student chapters, or college outreach programs, engineering students can organize workshops, career guidance sessions, and model exams, creating an ecosystem of support and aspiration. Their involvement not only benefits the school students but also cultivates a sense of social responsibility and leadership in the engineering students themselves.

Subject: Appreciation for your valuable contribution.

Dear students,

ARCHANA.N (IKS22ECO15), AYYAJI MADAVA
(IKS22ECO20), C. RAHUL (IKS22ECO22), LOHITH YADAVR
(IKS22ECO55), SRUJAN KARANATH.N (IKS22EC100)

On behalf of G.G.M.S Kanakapura Town I extend our heart-
felt gratitude and appreciation to all of you who participated
in the educational initiative under National Service Scheme
(NSS) and the youth for Seva.

Your dedication and enthusiasm in delivering enriching
Science classes to our students over the past one month with
two classes per week from February 8th 2025 to March 8th
2025 have left an indelible mark on their educational
journey.

Your efforts have not only enhanced their knowledge but
also ignited a passion for learning that goes beyond the
traditional curriculum. The way you simplified complex
concepts and engaged our students in interactive learning
sessions is truly commendable.

It is heartening to see young individuals like yourselves
taking the initiative to give back to the community, inspi-
-ring a culture of service and empathy. Your contribution
has been a great example of how collective efforts can make
a significant impact in the realm of education. We are
grateful for your time, energy, and expertise.

We hope this one-month experience has been as rewarding
for you as it has been for us and our students. We look
forward to more such collaborations in the future and
wish you all the very best in your future endeavours.

Thank you once again for your valuable contribution
and for being an inspiration to our students.

Warm regards

G.G.M.S Kanakapura Town

Subject: Appreciation for Your Valuable Contribution

Dear Students,

ADITHYA S-1KS22EC004, ARCHANA SK-1KS22EC016, ASHWINI P-1KS22EC018, ANUSHA MALIPATIL-1KS22EC013, SHOBHA HS-1KS22ME007, KR CHAITHANYA-1KS23ME404.

On behalf of NATIONAL HIGHER PRIMARY SCHOOL Subramanyapura, I extend our heartfelt gratitude and appreciation to all of you who participated in the educational initiative under National Service Scheme(NSS) and the Youth for Seva.

Your dedication and enthusiasm in delivering enriching the classes to our students over the past two weeks with two classes per week from 8th march 2025 to 22nd march 2025 have left an indelible mark on their educational journey.

Your efforts have not only enhanced their knowledge but also ignited a passion for learning that goes beyond the traditional curriculum. The way you simplified complex concepts and engaged our students in interactive learning sessions is truly commendable.

It is heartening to see young individuals like yourselves taking the initiative to give back to the community, inspiring a culture of service and empathy. Your contribution has been a great example of how collective efforts can make a significant impact in the realm of education. We are grateful for your time, energy, and expertise.

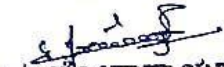

We hope this two-weeks experience has been as rewarding for you as it has been for us and our students. We look forward to more such collaborations in the future and wish you all the very best in your future endeavours.

Thank you once again for your valuable contribution and for being an inspiration to our students.

Warm regards,

NATIONAL HIGHER PRIMARY SCHOOL

Letter of Appreciation

Head Master,
Government Model Primary School
Jaraganahalli, Bengaluru - 78

Date: 19/03/2025

To,
K S Institute of Technology
Raghuvanahalli, Bengaluru - 560109

Respected Sir/Madam,

Subject: Letter of Appreciation for NSS Volunteering

This letter certifies that the following students

ADITI B PURANIK (1KS22AI002), RAKSHITHA K (1KS22AI034),
ROSHAN J (1KS22AI037), SAHITYA PRABHU (1KS22AI040), SHERWIN J
(1KS22AI047), SHREEGANESH NAYAK (1KS22AI048), SHREYAA G
(1KS22AI050) pursuing Bachelor of Engineering in the Department of AIML at
K S Institute of Technology, Bengaluru.

They dedicated two weeks helping our students to achieve good results
from 05/03/2025 to 19/03/2025 in Government Model Primary School
Jaraganahalli, Bengaluru.

The main subjects covered were Mathematics, English, some doubt-
clearing sessions and quiz competition. Our students found these sessions very
knowledgeable and helpful.

We appreciate their time, efforts and contributions in improving their
results and knowledge.

With Regards,

Onkarn Hegde

4. Conclusion:

Government schools play a pivotal role in shaping the future of India by providing education to millions of children, especially those from economically and socially disadvantaged backgrounds. The educational activity conducted during the NSS activity proved to be highly impactful in promoting academic enrichment. These initiatives were carefully designed to encourage active participation, critical thinking, and teamwork, thereby aligning with the broader goals of the National Service Scheme. By engaging in these activities, students not only enhanced their knowledge but also developed key skills essential for their personal and academic success. Overall, the program contributed meaningfully to the holistic development of participants, reinforcing the NSS's mission of fostering responsible, informed, and empowered students.

The one-month initiative taken up by the 6th semester engineering students to support government school children has been a truly impactful and enriching experience. Through weekly teaching sessions conducted by different student teams across various schools, we aimed to strengthen the academic foundation of the children and help them achieve better learning outcomes. The active participation and enthusiasm shown by the students made the sessions both meaningful and effective.

This initiative was made possible primarily with the support and guidance of Mr. Naveen V, NSS Program Officer, KSIT, whose encouragement motivated us throughout the journey. We are also grateful for the warm cooperation extended by the school teachers and headmasters, which played a crucial role in the success of this program. This initiative not only helped the school children gain knowledge but also gave us, as student volunteers, a valuable opportunity to contribute to society and develop a sense of responsibility and teamwork.

PROGRAM OUTCOMES:

At the end of the programme, the following PO's are attained.

NSS	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO 11	PO 12
NSS PROGRAMME						2	3		3			3

Justification of PO mapping:

- *Students can able to assess societal, health, safety, legal and cultural issues and the consequent responsibilities .*
- *Students can able to Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development .*
- *Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.*
- *Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change*
