Name: **Rakshith R**

Designation: **Founder**

Organization: **TRIP**

Place: **Bangalore**

Rakshith R, a Computer Science and Engineering student at R.V. College of Engineering, Bengaluru. I've authored the book Quantum Shadows and I'm interested in exploring ideas beyond academics, including technology, problem-solving, and early-stage entrepreneurship. I'm currently working on TRIP, an agritech initiative shaped through ground research into farmer pricing and supply-chain challenges.

Name: **Athish Kasyapa**

Designation: **CEO**

Organization: **TRIP**

Place: **Bangalore**

AthishKasyapa is a Computer Science and Engineering student and the author of Bharath: The Forgotten Knowledge. He is actively involved in exploring technology, problem-solving, and early-stage entrepreneurship. He is currently working on TRIP, an agritech initiative shaped through ground research into farmer pricing and supply-chain challenges. With over 10 years of service with the Art of Living, his journey reflects a balance of technical thinking, discipline, and purpose-driven impact.

Description of the Event:

Innovate the Future places strong emphasis on **entrepreneurship as a catalyst for economic growth and societal transformation**. The event aims to inspire students to move beyond conventional career paths and embrace **startup culture, innovation-driven enterprises, and problem-solving mindsets**. Participants are introduced to the fundamentals of entrepreneurship, including **idea validation, product development, innovation ecosystems, and real-world challenges faced by startups**. The sessions encourage students to identify opportunities, think creatively, and develop sustainable solutions with commercial and social impact. The resource persons share **real-life entrepreneurial journeys**, lessons learned from failures and successes, and practical insights on transforming ideas into viable ventures. Through interaction and discussion, students gain clarity on **how to convert technical knowledge into entrepreneurial opportunities**. By integrating **technology with entrepreneurship**, the event nurtures leadership, risk-taking ability, and confidence among students, aligning with the vision of the **Institution's Innovation Council (IIC)** to promote innovation, startups, and self-reliance.

Objectives/Key Highlights:

1. **To foster an innovation-driven mindset** among students by encouraging creative thinking and problem-solving aligned with emerging technologies.
2. **To provide exposure to cutting-edge technologies** and current industry trends that shape the future of engineering and entrepreneurship.
3. **To inspire entrepreneurial thinking** by highlighting the journey from ideas to successful startups and real-world implementations.
4. **To bridge the gap between academia and industry** through interaction with experienced resource persons and industry professionals.
5. **To encourage students to transform ideas into viable solutions**, products, or business models addressing societal and industrial challenges.
6. **To enhance awareness of innovation ecosystems**, including startups, incubation centers, funding opportunities, and government initiatives.
7. **To motivate students towards research, innovation, and startups** as career pathways alongside traditional employment.

Participant details–91

Schedule:

Day & Date	10.30 A.M. – 12.00P.M.	
23-12-2025 Tuesday	Inaugural Function (10:15 AM)	General discussion and ideas about Entrepreneurship (10:30 AM- 12:00 PM)

Photos (Geo Tagged):

EO#	EVENT OUTCOMES
EO1	Participants gained knowledge of emerging technologies and innovation trends , enabling them to identify opportunities for solving real-world problems.
EO2	Participants developed an understanding of entrepreneurship fundamentals , including idea generation, startup development, and innovation management.
EO3	Participants enhanced creative thinking, problem-solving, and entrepreneurial mindset , motivating them towards innovation, research, and startup initiatives.

PO1: Engineering knowledge PO2: Problem Analysis PO3: Design & Development PO5: Modern Tool Usage PO6: Engineer & Society PSO1: Ability to understand, analyze problems, and implement solutions in Programming languages, as well to apply concepts in core areas of Computer science in association with professional bodies and clubs.	PO7: Environment and Sustainability PO8: Ethic PO9: Individual & Team work PO10: Communication PO11: Project Management & Finance PO12: Lifelong Learning PSO2: Ability to use Computation Skills and apply software knowledge to develop effective solutions and data to address real world challenges.
