Affiliated to VTU, Belagavi & Approved by AICTE, New Delhi, Accredited
by NBA, NAAC & IEI

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Event Name: Workshop on "GEN AI" in association with CSI

Date of Conduction: 18-08-2025 to 20-08-2025

Venue: Conference hall

Time: 09.30am to 4.00 pm

Duration: 3 Days

Sponsoring Bodies / Associating Organizations: CSI

The poster features a yellow and white color scheme. At the top, it displays the KSIT logo and a 25th anniversary emblem. The text is centered and uses various font sizes and weights to highlight key information. Logos for the Institution's Innovation Council and Computer Society of India are also present. The bottom section includes location, date, and time details with corresponding icons.

THE DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
Organizes

Workshop on
"Gen AI"
in association with
Computer Society of India

Resource Person
Mr. Ajinkya Lohakare
CTO, Ditto Security

Will Grace the Occasion
Dr. Dilip Kumar K
Principal / Director, KSIT

Mrs. Beena K
Co-ordinator

Dr. Rekha B Venkatapur
Prof & Head, CSE Dept.

Conference Hall, KSIT
18th-20th Aug 2025
9:30 AM

Expert Details – with photo

Name: Ajinkya Lohakare

Designation: Chief Technology Officer

Organization: Ditto Security

Brief Profile About the Expert:

Mr. Ajinkya Lohakare is a multifaceted personality with expertise spanning across industrial automation, software development, and cyber security. With over 11 years of professional experience, he has worked as an Application Engineer with reputed companies such as Mitsubishi Electric, REFU Drive GmbH, GE Power Conversion, and CG Drives & Automation. Skilled in product development, engineering, project engineering, and automation, he has also established himself as a Certified Blockchain Expert and Penetration Tester. Widely recognized as "Cyberguru Ajinkya," he has conducted workshops on cybersecurity and ethical hacking, further showcasing his technical prowess. Beyond his technical contributions, Ajinkya is a noted public speaker, having delivered impactful talks on platforms like Josh Talks and TEDx. An alumnus of KJ Somaiya College of Engineering, Vidyavihar, his diverse expertise and experience make him a valuable resource in multiple domains.

Mr. Ajinkya Lohakore is a professional from Mumbai with expertise in Artificial Intelligence and Machine Learning. He has been actively involved in training students and professionals on cutting-edge AI technologies, including Generative AI, LangChain, Hugging Face, Cohere, and OpenAI platforms. His sessions are well-known for being interactive, practical-oriented, and industry-relevant. During the workshop, he not only shared his technical expertise but also motivated students to explore new AI-driven opportunities and projects.

Description of the Event:

INAUGURATION

The inaugural session of the Generative AI Workshop began with a Prayer song, followed by the ceremonial lamp lighting. The event Continued with the introduction of the resource person, setting A positive tone for the workshop conducted in association with CSI. The Principal and Head of Department addressed the gathering, Sharing their insights and encouragement with the students. The Resource person also spoke a few words, emphasizing the significance of Generative AI and its future application. The dignitaries highlighted the importance of AI in today's world and Encouraged students to explore its vast potential. The program concluded with words of gratitude, marking an inspiring start to the Workshop.

DAY 1 : INTRODUCTION TO GENERATIVE AI

The workshop began with an introduction to Generative AI, providing participants with an overview of its concepts, techniques, and wide-ranging applications across industries. Participants were introduced to powerful tools such as the Cohere API, OpenAI, and Hugging Face, which enable developers to build generative AI solutions efficiently. The sessions also covered the basics of the Attention Mechanism in AI, with reference to the landmark research paper "Attention is All You Need", which laid the foundation for modern transformer-based models. For practical learning, participants explored GitHub repositories and LangChain tutorials, gaining hands-on experience in developing AI-driven applications. Additionally, guidance was provided on setting up development environments using platforms like VS Code, Git Bash, and Google Colab, ensuring that learners were equipped with the necessary tools to continue their exploration of Gen AI beyond the workshop.

DAY 2 : HANDS-ON PRACTICE

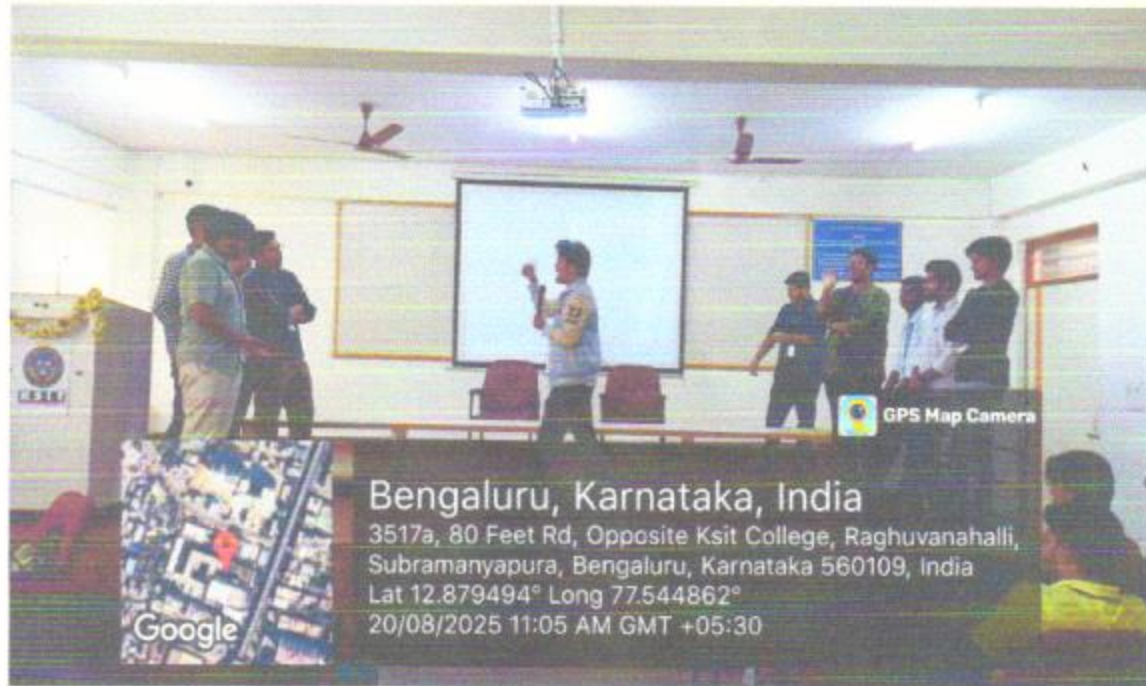

The practical sessions of the workshop provided participants with valuable hands-on experience in working with Generative AI tools and frameworks. Learners were guided through the process of cloning repositories, installing the required packages, and running AI-based projects to gain familiarity with real-world development workflows. They executed essential commands such as `git clone`, `pip install langchain`, `pip install cohere`, and `pip install streamlit`, which enabled them to set up their working environments efficiently. A major highlight of this session was the development of a simple Question-and-Answer chatbot using Cohere and LangChain, where participants applied the concepts of generative AI to build an interactive application. The sessions also included the exploration of Chrome-based extensions and practical exercises using TBomb, GitHub repositories, and Google Colab notebooks, allowing participants to broaden their technical skills and experiment with different tools. These activities not only enhanced their understanding of generative AI workflows but also helped them develop the confidence to implement AI-driven applications independently.

DAY 3 : ADVANCED TOOLS AND PROJECTS

The final sessions of the workshop introduced participants to a range of advanced AI tools that are shaping the future of creativity and innovation. Tools such as MidJourney for AI-driven image generation, Stability AI for advanced text-to-image applications, Suno AI for music generation, and Splash Pro AI for creative media projects were demonstrated, giving participants a broader perspective on how generative AI is being applied across different creative domains. Alongside these demonstrations, learners were guided toward useful resources and communities that support continuous learning, including Krish Naik's tutorials and repositories, Naomi Brockwell's educational resources, and communities such as the Skool platform and Smartness official videos. These references encouraged participants to remain connected with the larger AI ecosystem and continue their self-learning journeys. The sessions also involved in-depth discussions on the ethical usage of AI, addressing issues such as bias, copyright, and responsible implementation. Participants reflected on how these tools and concepts could be integrated into their future projects, ensuring innovation while maintaining ethical standards.

VALEDICTORY

The three-day Generative AI Workshop in association with CSI concluded Successfully with the valedictory session. Participants received certificates from the dignitaries, marking the end of an enriching and insightful learning experience. The resource person appreciated the active participation of the students throughout the sessions. The workshop concluded on a positive note, inspiring students to Further explore the vast potential of AI.

THREE D
WORKSH
ON GEN
Date: 18th-21st 2025
Organized
Department
Computer Sc
Engineer
In association
Sponsored
By: Aditya

Objectives/Key Highlights:

1. To introduce students to various generative AI platforms and frameworks.
2. To provide hands-on training in building AI applications.
3. To familiarize students with tools like Cohere, OpenAI, Hugging Face, LangChain, etc.
4. To encourage students to explore AI-powered creativity and problem-solving.
5. To understand the concept of AI Agents and how they differ from traditional AI models.
6. To explore how Generative AI powers agents in reasoning, planning, and creativity.

Video-URL(if any): No

Outcomes / Benefits:

1. Generative AI tools and their applications.
2. Exposure to AI platforms like Midjourney, Stability AI, and Suno AI.
3. Practical knowledge of building chatbots and experimenting with AI APIs.
4. Built a foundation for future projects, hackathons, and career opportunities in AI.

EO#	EVENT OUTCOMES
EO1	Gain practical skills in building, training, and deploying AI models using industry-standard tools , enhancing technical proficiency in AI.
EO2	Master the ability to identify and solve real-world business problems using AI technologies, from automating tasks to providing predictive analytics.
EO3	Understand how to apply AI solutions across various sectors, such as healthcare, finance, and retail, and tailor AI strategies to specific business needs.
