ELIMINATION OF SINGLE USE PLASTIC AT KSIT- 05:04:2021

We produce tons of single use plastic every year. These single use plastics are used only once and cannot be recycled. The single use plastic items include plastic bags, water bottles, polythene bags, plastic plates, etc. The use of such plastics needs to be banned because of its inability to decompose, production of harmful gases, soil contamination and environmental pollution. There are many suggested alternatives to plastics such as glass, cardboard, bamboo straws, etc.

We at KSIT took an initiative to create awareness about adverse effects on our environment because of single use plastics. Elimination of single use plastic awareness program was conducted on 5th April 2021 in the campus of KSIT. As a part of this event, CEO Dr.K.V.A Balaji ,HOD'S Of various departments, NSS student volunteers and faculties of KSIT gathered together to create awareness about this issue. Our principal Dr.Dilip Kumar.K addressed all the volunteers regarding the activity which was held.

Then all the student volunteers joined hands together and cleansed the college surrounding by picking up all the plastic materials.

REPORT ON AWARENESS PROGRAM OF COVID-19

An awareness program on COVID-19 was organised by the department Telecommunication engineering on 22nd December 2020. All students of 7th and 5th semester of the TC department attended the webinar online. Students of COVID HELP GROUP from various department of the esteemed institution also attended the webinar through online portal. Staff also attended the same.

Dr. B R Kalpana Obstetrician and Gynecologist ,was the speaker for the day. Dr. B. R. Kalpana is a practicing Obstetrician and Gynecologist, area of interest being High Risk Pregnancy and Infertility. She did her undergraduation from Dr B. R. Ambedkar Medical College, Bangalore. She went on to do her Post Graduation from Gorilla Nehru College, Belgaum.

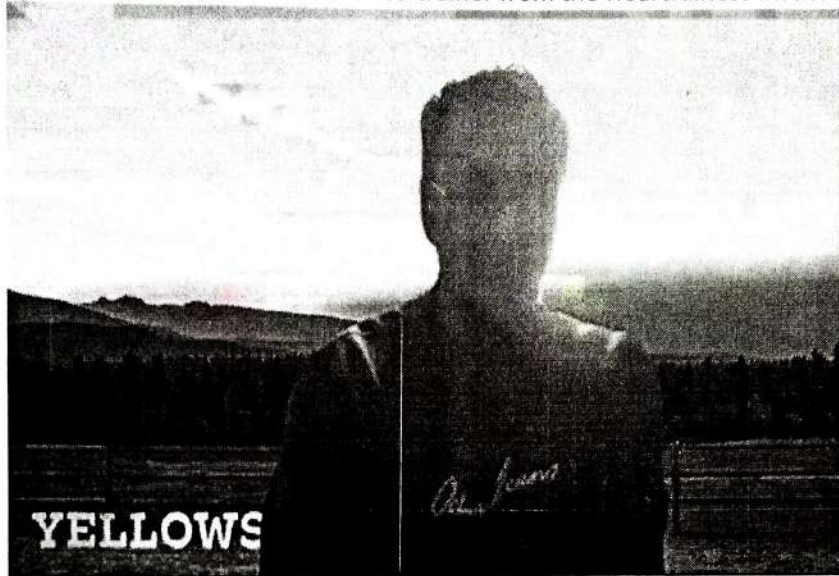

Dr. B R Kalpana also went on to do a Master's degree in counseling and Psychotherapy from Kuvempu University. She has been involved in many wellness initiatives involving Youth, Women and Children. She is a faculty member at CREST [Center for Research, Education, Sadhana and Training] which is a research center located on the Kanakapura Main Road.

Dr. B R Kalpana visits Accenture to interact and give talks on Wellness [Physical, Mental and Spiritual] She is also involved in Heartfulness initiative called CME [Continued Medical Education] a program for Healthcare Professionals including Doctors, Surgeons across India.

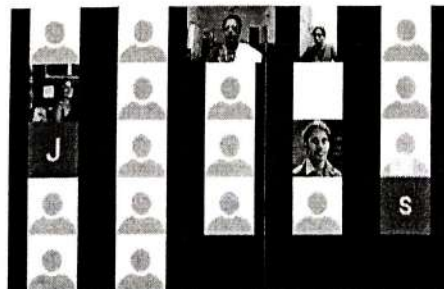

Dr B R Kalpana delivering webinar through online platform

We had Mr. Parthasarathy Patel as our guest of honor. Parthasarathi Patel holds a Post Graduate Degree from IIIT-B and an MBA from BITS-Pilani. He is a Senior IT Consultant and a Technical Lead with Oracle India with over 17 years of total experience. His area of expertise includes Oracle's Clustering Solution - Oracle Clusterware, writing System Software and Mentoring Teams. He has had a long association with Educational Institutes in imparting Soft Skills Related training programs. His research interests are Servant Leadership, Neuroplasticity, Emotional Intelligence and Change Management. Parthasarathi has been a meditator for the past eighteen years. He practices Heartfulness meditation. And he is a certified trainer from the Heartfulness Institute.

Mr Parthasarathy Patel speaking about pandemic through online portal

Dr. B R Kalpana mam gave us knowledge about Corona virus , how it is spreading, what are its symptoms and what all precautions have to be taken to avoid getting infected , where the virus is getting transmitted through direct contact with respiratory droplets of an infected person. The symptoms can include fever, cough, shortness of breath. In more severe cases, infection can cause pneumonia or breathing difficulties. She spoke about the ill effects of Pandemic and how to cope up with it. She thought meditation to all participants and it had overall relaxing effect. Meditation can put you in a state where it can help you take better decisions. She gave insights on how meditation can help deal with the current pandemic. She spoke about healthy food habits and immune boosting foods. Overall it was a very interactive session. It is important to create the awareness and preparedness of the targeted community members, especially youngsters.

REPORT ON HACKATHON HOSTED BY INCUBATE IND

GitHub

CODE INNOVATION SERIES creates an open-source platform for 100+ colleges and students across India to ignite the passion amongst students to build a better world around us and support Open Source. To create India's largest Open source Hackathon Series for 100+ college students across India wherein the Young Technology Enthusiasts will solve the major problems of Education, Healthtech, and Fintech that curbs India's growth story. This hackathon is hosted by IncubateIND under the GitHub Campus Program collaboration with **K.S Institute of Technology, Bengaluru**.

Challenges

Education

The online education market in India was worth \$ 247 million in 2016, which is expected to grow by about \$ 1.96 billion by 2021. The number of users enrolled for various online learning courses is estimated to be 1.6 Million in 2016, which is expected to grow to about 9.6 Million by the end of 2021.

Fintech

The FinTech industry in India has grown exponentially. At 87%, India has emerged as a leader in FinTech adoption, as per Global FinTech Adoption Index 2019 reports. This sector has grabbed attention of not only start-ups but also established companies along with public and private sector banks.

Healthtech

India is a hotbed of tech innovations and startups across the world. Tech-equipped medical devices and the development of top-notch technology for critical ailments such as heart diseases, diabetes, & cancer are already bringing laurels to Indian health-tech startups.

The online event duration was about 30 hours from 15th -16th April 2021 and around 200+ students were registered , the session was mentored by Prof. Roopesh Kumar B N, Prof. Raghavendrachar S, Prof. Krishna Gudi .The sessions were monitored and guided by Dr. Ram P Rustagi, KRP,KSGI,Bengaluru.

SNAPSHOTS OF THE EVENT

shashank ganesh is presenting

Money laundering is a process that criminals use in an attempt to hide the illegal source of their income. By passing money through complex transfers and transactions, or through a series of businesses, the money is "cleaned" of its illegitimate origin and made to appear as legitimate business profits.

The Need to Launder Money

A major business problem of large, organized criminal enterprises – such as drug smuggling operations – is that they end up with huge amounts of cash that they need to conceal in order to avoid attracting investigations by legal authorities. The recipients of such large amounts of cash also do not want to have to acknowledge it as income, thereby incurring massive income tax liabilities. To deal with the problem of having millions of dollars in cash obtained from illegal activities, criminal enterprises create ways of "laundering" the money to obscure the illegal nature of how it is obtained. In short, money laundering aims to disguise money made illegally by working it into a legitimate financial system, such as a bank, or business.

THE POWER OF VISUALS IN ONLINE LEARNING

The human brain processes visuals **60,000** times faster than text.

In fact, it takes only **13 MILLISECONDS** for the brain to process an image.

Visuals are more likely to be stored in our long-term memory, leading to **BETTER RETENTION**.

According to a study, after 2 days, people retain **65%** of people are visual learners.

Overall, visuals have been found to improve learning and retention by up to **400%**.
